Hi Sarah,

Hope you're great and hanging in there!

Didn't see an email response not sure if we ever heard back on LASAN's stats and status of the work alongside the Sylmar creek south of Glenoaks/Cobalt? We'd love to highlight your work with the community.

Thanks so much Sarah! Keep safe, sane, and healthy!

- Rocio

Sarah,

Any stats on the work that occurred south of Glenoaks/Cobalt.

Morning Sarah!

I did receive images yesterday. I've requested access as didn't have access to them. However, I was provided access this morning!

But I didn't receive any stats from the clean up south of Bledsoe. Would you be able to provide those? Thanks!

Yes, Juan got them yesterday I believe.

Juan, did Vincent give you the photo access you requested?

Good morning Sarah,

Happy Friday! Do you know if this location was finished? If so, do you have similar stats you can share with us similar to last time's cleanup?

Thank you,

- Rocio

Let me double check but I think they might already be finished.

Hi Sarah,

following up on this email. Also, is there a good day to stop by to photograph/document the work that the sanitation team is conducting at the lower half of the creek?

Happy Monday Sarah!

When should we expect an update on the south/remaining portion of the 'creek?'

Thanks again for the info!

Hi Rocio

Our crews have been working in the channel for approximately six weeks. They recently completed the section between Glen Oaks and Bledsoe. They are now continuing south of Bledsoe. They did bypass the homeless encampment and are working further south back toward the encampment. The encampment section will be cleaned in conjunction with the LSD staff as it requires us to follow the encampment clean-up protocols. There is one section where they did find a number of bees and we are working with our beekeepers to have those bees addressed so that we can finish that portion. Even with obstacles the WCSD has continued to work in the channel daily with the goal of clearing the entire channel.

Below are some metrics from our last six weeks of work:

2,700 Clean-up hours with LASAN staff
500 Clean-up hours with our LACC contracted crew
35,000 lbs/17.5 tons of green waste hauled to Lopez Canyon
250 Cubic Yards of trash and debris removed for solid waste disposal

Additionally, there is a pending request to remove one large eucalyptus tree that is impacting private property and we may need to place 1-2 additional requests for similar trees along the channel.

Sarah
